Box 96 .

CM

Friday A. M. 9 o'clock.

Dear Cousins - Hope you are much better this morning - I have just written a note to Geo. for Johnnie to take out this P. M. He is talking of cooking for himself, and I can give him some things. I told Papa a while ago, to tell Mr Shapland to get the garage done by the 4 of May - as our rent is due then and I am going to move. We soon will not have a cent of money to pay rent with, and feeling mighty poor now. Our can of groceries Johnnie got at the stores by selling fallen oranges & it is about all gone. Lots of and we have been buying groceries ever since we are here. We thought when we got in town we would not be so hungry and it would not take so much, but guess we eat as much as more. and no garden & every thing

to buy, and nothing coming
in, and I know he won't do
a bit of work out there until
we get moved. He says the
lumber is all over the ground.

We went home with Taylors
again last Sunday.

When we get moved I can
fix ~~up~~ go, up better.

I must close as I want
to mail this. Papa is going up
street. It is a harder job to get
things mailed here than out
in the country. ~~We~~ could get
stamps, and all kinds of things
I a day out there.

With Love Ella
I don't believe I ever thanked you
for the beautiful Easter card,
So will now. Thank you.
